CAREER OBJECTIVE

Seeking an entry-level opportunity in Data Analytics, Software Development, Python Development, Java Development, or Full-Stack Development where I can use my technical knowledge, learn new technologies, and contribute effectively to the organization.

PROFILE

Motivated Computer Science undergraduate with a strong foundation in Python, Java, SQL, HTML, and CSS. Interested in data analytics and software development, with a willingness to learn and apply technical skills to practical problems.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript

Data Analytics: Excel, Power BI, SQL, MySQL

Machine Learning: Python ML, NLP, TF-IDF, Naive Bayes, Logistic Regression

Web Technologies: HTML, CSS, React.js (or Angular)

Backend: Node.js, Spring Boot, REST APIs, CRUD Operations

Database: MySQL, SQL Queries, Basic Database Design

Tools: Git, GitHub, VS Code, Command Line / PowerShell

INTERNSHIP

Data Analyst Intern — VDart Academy

Gained practical exposure to data analysis using Excel, Power BI, SQL, and Python. Worked with data organization, basic analysis, visualization, and reporting concepts.

PROJECT

Spam Email Detection

Developed a spam email detection system using Python and machine-learning techniques. Applied text preprocessing and TF-IDF to analyze email content and classify messages as spam or non-spam. A Flask web application was developed for real-time prediction.

Project Work: Built the classification workflow, prepared text data, applied the model, and connected the prediction system to a simple web interface.

EDUCATION

B.Sc. Computer Science
Srimad Andavan Arts and Science College, Thiruvanaikoil, Trichy.
Batch: 2023–2026

STRENGTH

Problem-solving • Fast learner • Logical thinking • Discipline • Teamwork • Independent focus

---

LANGUAGE

Tamil — Native
English — Advanced

CAREER INTEREST

Data Analytics • Software Development • Python Development • Java Development • Full-Stack Development

---

INTEREST

Interested in learning new technologies, working with data, building practical software solutions, and improving technical skills through real-world projects.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
